John's got the Rheumatism and Muscular Pains again. Why not try the Dr. Mendenhall's Rheumatism Cure? It's the only cure for Rheumatism and Muscular Pains.

A colony of gutter snakes, located near the school house, has afforded no end of diversion to the scholars.

The wife of one of our prominent townsmen presented him with an olive branch on the 30th ult.

Thrashing is about completed in this district.

**SERGEANT COLEBROOK SLAIN.**

A Pacific Indian killed him dead and left him.

Deer Park, Oct. 31.—Last Tuesday an Indian with a spear and bow killed a Sergeant Colebrook, a member of the 10th Cavalry.

Charles's Dickson was on guard, one of the prisoners, a tough character, charged the Indian. The Indian was killed and the prisoner was taken to the hospital.

A young schoolmaster named Garvin, who was a member of the 10th Cavalry, was killed by the Indian.

## THREE OF A KIND.

Shortis, Holmes and Durrant Will Dance on Air.

BEAUBARNOS, Nov. 3.—The jury in the Shortis trial went out at half past seven last night, and Judge Matheson adjourned court until half past nine this morning.

The jury then returned a verdict of guilty, finding also that Shortis was not when he committed the crime, and that from a mental infirmity rendering him incapable of appreciating the gravity of the act.

The juror did not appear to notice the verdict, but his father was told it. Sentence will be pronounced to-morrow morning. The defence will appeal.

BEAUBARNOS, Nov. 4.—Valentine Shortis, the Valleyfield murderer, was sentenced this morning to be hanged on January 3, at 8 p.m.

PHILADELPHIA, Nov. 4.—Henry H. Holmes was convicted of murder in the first degree on Saturday night for the killing of Benj. F. Pritchard. The verdict had little effect on Holmes. He sleeps well and declares his innocence.

SAN FRANCISCO, Nov. 3.—The calm and confident demeanor of Theodore Durrant continues unaltered, despite his conviction yesterday for the murder of Blanche Lamont. "This verdict," Durrant said to-day, "does not affect me at all. As a matter of fact, there has been nothing in all this case which has moved me in any way, and there will be nothing. I do not wish to be understood as saying that I am insensible of feeling, but I have not done wrong, and a consciousness of innocence buoy me up."

HOORIBLE.

Shocking State of Affairs Revealed at the Thompson Inquiry.

MOOSEJAW, Nov. 4.—The coroners' inquest and investigation into the Shortis Thompson poisoning case is still going on very slowly, only four or five witnesses being examined daily. W. White, Q.C., is acting for the crown, and Mr. F. F. Forbes for the Thompson family.

The evidence so far is very conflicting and damaging to members of the family. The history of the case is as follows: The girl, Sarah Jane Thompson, had been living with her father and three brothers in a one-roomed miserable shanty for a number of years. She has had several children, all of which died, and when found poisoned, was about to become the mother of another. As the circumstances and cause of her death were suspicious, a coroner's inquest is being held.

The brothers are all more or less weak-minded, as also is the father, and it is hard to say as to whether they are responsible for the case. The result of the inquest is awaited with interest.

Indian Head Items.

(From Our Own Correspondent.)

In consequence of numerous enquiries as to the progress made by the Indians in the various reserves in the Territories in acquiring practical knowledge of agriculture, therefore, a brief review of the successful operations performed by the Indians on the Assiniboia reserve, south of Indian Head, may be interesting to those concerned in the civilization of the aborigines of this part of our fair Dominion. There are eighty-two families on the reserve, occupying seventy-two cozy log huts, built by the Indians themselves, each of which is attached to a well cultivated garden, in which all kinds of roots and vegetables are successfully raised. There were 28 acres under crop this year, the larger portion being wheat, which is of good quality. During the present season 1.5 acres were broken and ninety-five summer fallowed. There are twenty-one yoke of working oxen, besides a large number of ponies. Six hundred tons of hay have been secured. It is but just to state that 6.00 sacks of flour was the annual allowance for the reserve in its earlier history, now only sixty sacks are required, thus showing that the institution is rapidly becoming self-sustaining. There are eighteen children attending the Industrial school. The exhibit from the reserve at the various annual exhibitions, has justly won the admiration of all. That Mr. Grant, the agent, possesses a large amount of the milk of human kindness, has done much for the amelioration of the condition of the Indians under his charge, is well known far and near, and his laudable efforts in that respect are duly appreciated by an intelligent and discerning public.

Mr. R. C. Sanderson, residing seven miles northeast of the town, met with a serious accident on the 29th ult. He was driving a team having some household furniture on the wagon, when the horses took fright and ran away, throwing him violently to the ground. His body has been bruised, his shoulder dislocated and several ribs broken. Under the skillful treatment of Dr. Kemp, it is to be hoped his recovery will be rapid.

FROM FORT QU'APPELLE.

News From Our Northern Neighbor Territory.

Mr. McNeill, Indian agent at File Hills, was in town last week.

P. J. Hamilton, of Wishart, paid us a flying visit.

The travelling inspector of bonded liquors was in town on his yearly trip, as was also a commercial drummer.

A. Gray, of the Massey-Harris Co., and C. Babier, watchmaker, of Qu'Appelle Station, were in town last week.

Saturday afternoon rain descended and before morning it had turned into snow, leaving about an inch on the ground over Sunday.

A skating party was given on Friday night, and as the ice was in splendid condition and cordwood cheap, it was a success, with a big S.

Rev. Mr. Matheson passed through here on Saturday, en route to the File Hills where he intends to have service on Sunday and administer the title of communion.

Messrs. Brine and another gentleman have returned from a hunting trip to Long lake with the usual eastern fisherman's luck. B. says he only saw one duck while away. Part of the road home they were accompanied by Messrs. Love and Harvey, of Qu'Appelle Station. What luck the latter had deponent saith not.

By the way, do you know of any town ahead of us in curling? Had a good game on the 30th October. Two visitors from the Station took part, and yes, you know it was grand. On the same evening the sports and business men of the town met at R. Smith's hotel and decided to build a rink 29x150 feet, with waiting room attached, the whole to cost about \$200. Work is now progressing rapidly, and before a month the members of the club expect to be in a position to issue challenges to their friends and assure them as fine a sheet of ice as can be found in the Territories.

Edgely Echoes.
